

COVID-19 Protocol At-a-Glance for Retreat Season 2021-2022

Our highest priority is always to ensure a safe and healthy environment for our guests and staff. In accordance with best practices and guidelines from the CDC, ACA, local health authorities, and other medical professionals, we have created COVID-19 protocols. We will remain in step with best practices and adjust our protocols as necessary. Our protocols contain many layers, which we feel will help provide safe spaces, and still allow for fun and faith formation to take place this summer.

The following is an overview of our COVID-19 Protocol for the 2021-2022 Retreat Season.

Arrive healthy! Before your event, please consider limiting your exposure by avoiding large gatherings or crowds, monitoring your own health, and wearing face coverings when in public or with those outside your household/bubble for 2 weeks prior to your arrival.

We discourage attendance at our facilities if you or household members are at high risk of serious illness from COVID-19.

To allow for better distancing, we have reduced the number of groups onsite at any given time, & have implemented staggered mealtimes for groups using meal service.

We encourage groups to use outdoor settings for as many activities as possible.

Masks are required for indoor and certain outdoor activities. This includes when checking in with our staff & at all meal service times unless seated and eating.

Increased hand-washing & careful health monitoring of all group members is strongly encouraged for all contracted groups.

Our sites will use enhanced cleaning procedures, and we request that shared equipment & surfaces be sanitized by groups before and after their use.

We request that you pursue prompt consultation with medical professionals for suspected cases of COVID-19. Please report any positive COVID test results to AtKB Staff immediately!

All protocols used at Agapé † Kure Beach Ministries have been reviewed by our Camp Physician.
