

# COVID-19 Protocol At-a-Glance

Our highest priority is always to ensure a safe and healthy environment for our campers and staff. In accordance with best practices and guidelines from the CDC, ACA, local health authorities, and other medical professionals, we have created COVID-19 protocols. We will remain in step with best practices and adjust our protocols as necessary. Our protocols contain many layers, which we feel will help provide safe spaces, and still allow for fun and faith formation to take place this summer.

If you have any questions, please contact our program director, Christa, at 919.552.9421.

Arrive healthy! Please consider limiting your exposure by avoiding large gatherings or crowds, monitoring your own health, and wearing face coverings when in public or with those outside your household/bubble for 2 weeks prior to your arrival.

We discourage attendance at camp for campers or household members at high risk of serious illness from COVID-19.

To allow for better distancing, we have reduced camper capacity, and we have different levels for camper interactions (Cohort, Program, and Community Groups).

We will be using the outdoors for as many activities as possible.

Masks are required for indoor and certain outdoor activities. This includes camp drop-off and pick-up times.

Increased hand-washing and daily health screenings for campers and staff.

Our sites will use enhanced cleaning procedures, and shared equipment and surfaces will be sanitized by Cohort Groups before and after their use.

Prompt consultation with medical professionals for suspected and/or confirmed cases of COVID-19.

All protocols used at Agapé † Kure Beach Ministries have been reviewed and signed off on by our Camp Physician.
